Perfect — this clarification changes everything.
What you're describing is **NOT an operational supervisor**.

You are describing a **Shift Business Manager (SBM)** role.

Below is a **clean, final, CEO-grade definition** of the **Shift Incharge role**, rewritten to match **exactly** what you want them to do — **no overlap, no clerical work, no duplication**.

✅ SHIFT INCHARGE (SHIFT BUSINESS MANAGER) — FINAL ROLE DEFINITION

Core Purpose

The Shift Incharge is responsible for **running the shift as a business unit**, not just handling day-to-day issues.

They exist to:

- remove obstacles
- guide teams
- enforce flow & compliance
- forecast capacity
- improve scalability
- propose better systems

They are accountable for **HOW the shift performs**, not just **WHAT happened**.

1️⃣ Objection Handling & Escalation Control

Ownership

- Handle student, parent, tutor, and internal objections at shift level
- Resolve issues without unnecessary escalation
- Decide what must go to T&D, HR, or Management

Monthly Parameters

- Objections received
- Objections resolved at shift level
- Objections escalated
- Repeat objections (same root cause)

2️⃣ Team Guidance & Performance Direction

Ownership

- Guide tutors, support staff, and coordinators
- Correct behavior and performance gaps
- Align teams with policies and targets

Monthly Parameters

- Team guidance sessions conducted
- Performance corrections issued
- Repeat performance issues
- Teams requiring intervention

3️⃣ Target Setting & Review (Shift-Level)

Ownership

- Set short-term shift targets aligned with company goals
- Review performance against targets
- Recommend target adjustments when required

Monthly Parameters

- Shift targets set
- Targets achieved
- Targets missed
- Root causes identified (count-based, not narrative)

4️⃣ Forecasting & Capacity Planning

Ownership

- Forecast student load for the next 30–60 days
- Forecast tutor capacity needs
- Flag risks before shortages happen

Monthly Parameters

- Expected student growth
- Expected tutor requirement
- Capacity gaps identified
- Advance hiring requests raised

5️⃣ Compliance Enforcement

Ownership

- Ensure SOPs, policies, and workflows are followed
- Identify and stop policy drift
- Ensure documentation over verbal commitments

Monthly Parameters

- Compliance checks performed
- Compliance breaches identified
- Compliance breaches corrected
- Unresolved compliance risks

---

6 Scalability & Flow Optimization

Ownership

- Ensure current workflows are followed
- Identify friction points in the flow
- Propose improved workflows where needed

Monthly Parameters

- Process issues identified
- Process improvements suggested
- Improvements approved
- Improvements implemented

---

7 Quality & Stability Oversight (Shift Lens)

Ownership

- Monitor quality signals indirectly (not QA work)
- Detect early churn or dissatisfaction patterns
- Trigger preventive action

Monthly Parameters

- Quality risk flags raised
- Preventive actions taken
- Risks resolved
- Risks escalated

---

8 Cross-Department Coordination

Ownership

- Coordinate with HR, T&D, Admin, Finance, Marketing
- Ensure shift needs are communicated clearly
- Track resolution of escalated items

Monthly Parameters

- Issues escalated by department
- Issues resolved
- Pending cross-department actions

9️⃣ Change Advisory Role

Ownership

- Advise management on new flows
- Validate new policies at shift level before rollout
- Act as pilot owner for change

Monthly Parameters

- New flows tested
- Feedback submitted
- Adjustments recommended
- Final flows approved

🔟 Reporting Discipline (Executive View)

Ownership

- Submit a **Shift Business Report**, not operational logs
- Focus on risks, trends, and improvements

Monthly Parameters

- Report submitted on time (Yes/No)
- Key risks highlighted
- Decisions required from management (count)

📌 WHAT SHIFT INCHARGE DOES *NOT* DO

❌ Payroll calculations
❌ Attendance marking
❌ HR admin
❌ QA audits
❌ Petty cash
❌ Marketing execution
❌ Daily reporting

They **own thinking, control, and improvement**, not clerical work.

🎯 KPIs YOU SHOULD HOLD THEM ACCOUNTABLE FOR

- Shift stability (low escalations)
- Early risk detection
- Target accuracy (forecast vs actual)
- Compliance rate
- Improvement adoption rate
- Reduced firefighting over time

🧠 ONE-LINE ROLE SUMMARY (USE THIS INTERNALLY)

> **"The Shift Incharge runs the shift like a business, ensures flow, removes friction, and prepares the shift to scale."**

📌 GOVERNANCE RULES (SHIFT INCHARGE)

- Frequency: **Monthly**

- Deadline: **3rd working day of each month**
- **Closing date: 25th of each month**

- Morning & Night **submitted separately**

- No narratives

- No assumptions
- One Shift Incharge accountable per shift
